Very few cars can make you feel special the way this BMW x6 M40i does. The whole aura around its performance, looks and experience is nothing short of intoxicating.If you’re a fan of long bonnets and crisp backsides, the x6 will make you gasp each time you set your eyes on her. She looks like an angry cat ready to pounce with those fiercely detailed headlamps and that wide low-slung kidney grille. You tend to simply ogle at the seductive body that flows around those immaculate 19-inch alloys, and on to that tight rear.
